

## [UPDATE] Google contacts to people importer

### Description

#### Google contacts to people importer [UPDATE 17/12/2023]

[gmailcsv2people.yab-17122023](mailto:gmailcsv2people.yab-17122023)

install yab first via HaikuDepot, then run this script in Terminal "yab gmailcsv2people.yab"

not all of the attributes will be imported, google contacts export has 49 columns

but feel free to modify the source code to your needs
